CONTENTS

No. 1, SEPTEMBER 20, 1938

PAGE

BYLER, W. H., and ROZENDAAL, H. M. The electrophoretic mobility of human erythrocytes—whole cells, ghosts, and fragments 1

HECHT, SELIG, PESKIN, JAMES C., and PATT, MARJORIE. Intensity discrimination in the human eye. II. The relation between $\Delta I/I$ and intensity for different parts of the spectrum 7

SMITH, EMIL L. Limiting factors in photosynthesis: light and carbon dioxide 21

COLE, KENNETH S., and CURTIS, HOWARD J. Electric impedance of *Nitella* during activity 37

HERRIOTT, ROGER M. Kinetics of the formation of pepsin from swine pepsinogen and identification of an intermediate compound 65

ANSON, M. L. The estimation of pepsin, trypsin, papain, and cathepsin with hemoglobin 79

HILL, S. E., and OSTERHOUT, W. J. V. Nature of the action current in *Nitella*. IV. Production of quick action currents by exposure to NaCl 91

HILL, S. E., and OSTERHOUT, W. J. V. Delayed potassium effect in *Nitella* 107

OSTERHOUT, W. J. V., and HILL, S. E. Pacemakers in *Nitella*. II. Arrhythmia and block 115

No. 2, NOVEMBER 20, 1938

KRUEGER, A. P., and STRIETMANN, W. L. Effect of sodium sulfate on the phage-bacterium reaction 131

OSTERHOUT, W. J. V., and HILL, S. E. Calculations of bioelectric potentials. IV. Some effects of calcium on potentials in *Nitella* 139

PAGE

JACQUES, A. G. The kinetics of penetration. XV. The restriction of the cellulose wall 147

ROSS, A. FRANK, and STANLEY, W. M. The partial reactivation of formolized tobacco mosaic virus protein 165

BERGREN, W. R., and WIERSMA, C. A. G. Chemical changes in the adductor muscle of the cheliped of the crayfish in relation to the double motor innervation 193

KUNITZ, M. Formation of new crystalline enzymes from chymotrypsin. Isolation of beta and gamma chymotrypsin 207

TATUM, EDWARD L., and BEADLE, G. W. Development of eye colors in *Drosophila*: some properties of the hormones concerned 239

BLINKS, L. R., DARSIE, M. L., JR., and SKOW, R. K. Bioelectric potentials in *Halicystis*. VII. The effects of low oxygen tension 255

No. 3, JANUARY 20, 1939

BOYD, WILLIAM C., and HOOKER, SANFORD B. The influence of the molecular weight of antigen on the proportion of antibody to antigen in precipitates. II. A statistical examination of available data, including some previously unpublished 281

KUNITZ, M. Effect of the formation of inert protein on the kinetics of the autocatalytic formation of trypsin from trypsinogen 293

CROZIER, W. J., WOLF, ERNST, and ZERRAHN-WOLF, GERTRUD. The flicker response function for the turtle *Pseudemys* 311

CROZIER, W. J., and HOLWAY, A. H. Theory and measurement of visual mechanisms. I. A visual discriminometer. II. Threshold stimulus intensity and retinal position 341

ELLIS, EMORY L., and DELBRÜCK, MAX. The growth of bacteriophage 365

GREENWALD, ISIDOR. The antagonism between sodium and magnesium ions in their action upon oxalate ion 385

WALD, GEORGE. On the distribution of vitamins A_1 and A_2 391

OSTERHOUT, W. J. V. Changes of apparent ionic mobilities in protoplasm. IV. Influence of guaiacol on the effects of sodium and potassium in *Nitella* 417

No. 4, March 20, 1939

PAGE

Kunitz, M. Formation of trypsin from crystalline trypsinogen by means of enterokinase 429
Kunitz, M. Purification and concentration of enterokinase 447
Crozier, W. J., Wolf, Ernst, and Zerrahn-Wolf, Gertrud. The flicker response contour for the isopod *Asellus* 451
Crozier, W. J., and Wolf, Ernst. The flicker response contours for genetically related fishes. II 463
Crozier, W. J., and Wolf, Ernst. Temperature and critical illumination for reaction to flickering light. III. Sunfish ... 487
Jacques, A. G. The kinetics of penetration. XVI. The accumulation of ammonia in light and darkness 501
Jacques, A. G. The kinetics of penetration. XVII. The exit of ammonia in light and darkness 521
Abramson, Harold A., Furchgott, Robert F., and Ponder, Eric. The electrophoretic mobility of rabbit erythrocytes and ghosts 545

No. 5, May 20, 1939

Crozier, W. J., and Wolf, Ernst. The flicker response contour for the gecko (rod retina) 555
Guttman, Rita. The electrical impedance of muscle during the action of narcotics and other agents 567
Hecht, Selig, and Mintz, Esther U. The visibility of single lines at various illuminations and the retinal basis of visual resolution 593
McAlister, E. D. The chlorophyll-carbon dioxide ratio during photosynthesis 613
Pratt, Ernest F., and Williams, Roger J. The effects of pantothenic acid on respiratory activity 637
Cole, Kenneth S., and Curtis, Howard J. Electric impedance of the squid giant axon during activity 649
Cole, Kenneth S., and Hodgkin, Alan L. Membrane and protoplasm resistance in the squid giant axon 671

No. 6, JULY 20, 1939

PAGE

ZAHL, PAUL A., KOLLER, L. R., and HASKINS, C. P. The effects of ultraviolet radiation on spores of the fungus *Aspergillus niger*..... 689

KRUEGER, A. P., and SCRIBNER, E. J. Intracellular phage precursor..... 996

SIZER, IRWIN W. Temperature activation of the urease-urea system using crude and crystalline urease..... 719

JACQUES, A. G. The kinetics of penetration. XVIII. Entrance of water into impaled *Halicystis*..... 743

JACQUES, A. G. The kinetics of penetration. XIX. Entrance of electrolytes and of water into impaled *Halicystis*..... 757

WALD, GEORGE. The porphyropsin visual system..... 775

CROZIER, W. J., and WOLF, ERNST. Temperature and critical illumination for reaction to flickering light. IV. *Anax* nymphs..... 795

DAMON, E. B. Bioelectric potentials in *Valonia*. II. Effects of artificial sea waters containing LiCl, CsCl, RbCl, or NH_4Cl.. 819

INDEX TO VOLUME 22 835
